## On the Tail of Climate Change in the Arctic New Gear Research projects Ocean

in the field of the Arctic

26 August 2013/Kiel. How climate change affects the Arctic is a topic of great interest. The changes affect the ecosystem and the large-scale processes of the Arctic region. These are the gear research projects to be carried out in the Laptev Sea, East Siberia, and the Arctic. It is the first time the Research Act is part of a new gear research project coordinated at GEOMAR Helmholtz Centre for Ocean Research Kiel, and the high-resolution gear research project is at 7 sites.
